### \* 1st enrolment fee

The school and families form an educational community. The first enrolment fee, which is payable once only on the child's first enrolment, represents the family's membership of this educational community. It is used for the long-term development and investment of Christols Institute, including the maintenance of the buildings and the development of the school grounds.

These fees are non-refundable in the event of withdrawal and are fixed even in the event of enrolment during the year.

### \*\* Administrative fees

These fees cover the administrative costs of enrollment or re-enrollment, as well as the distribution of the yearbook at the end of the school year. They are non-refundable in the event of withdrawal and remain fixed even in the case of enrollment during the school year. They are payable each year at the time of enrollment or re-enrollment.
